ONCE IT'S GONE, IT'S GONE?

Not Any More!!!

Complete peace of mind with CabCar Tracker that monitors, tracks & retrieves assets 24/7.

CabCar Tracker Systems offer high tech assisted GPS and GloNass location technologies that can track stolen vehicles 24/7. CabCar Tracker even works when concealed in garages, lock-ups, or underground car parks. Even covert installation is possible, which is ideal for fleet and hire vehicles.

In the event that the asset is stolen, accurate high resolution location technologies allow law enforcement agencies to track and recover your asset.

CabCar Tracker is powered by the Telstra NextG mobile network with daily report monitoring via CloudConnect device management system.

Want to personally monitor your assets 24/7 in real time? Then simply upgrade to CabCar Live Tracker and receive full access to the CabCar Tracker Website.

Rest easy knowing that your assets are being monitoring with a pre-paid monitoring plan subscription. Choose from 12, 24 or 36 month subscriptions for financial peace of mind that suites you.
